Ms. Dee Kring
325 John Knox Road, Suite L103
Tallahassee, FL 32303

Dear Ms. Kring,

The Buros Center for Testing hereby confirms that the National Home Inspector Examination (NHIE) program was awarded Buros Stage One Accreditation in 2019 on the basis of a comprehensive review of the program's processes and operations. Additionally, the Buros Center for Testing awarded Stage Two Accreditation of NHIE testing cycles in 2019, 2020, 2021, and 2022.

Both, Stage One and Stage Two accreditation certify that the testing program's processes and operations meet Buros Standards for Accreditation, which are based on and synthesize requirements of the 2014 Standards for Educational and Psychological Testing developed by the American Educational Research Association, the American Psychological Association, and the National Council on Measurement in Education. While Stage One accreditation focuses on general aspects of a testing program including its resources, processes, and operations related to exam development, administration, scoring, reporting, and security, Stage Two accreditation focuses on specific test forms and testing cycles reviewing test-form-specific psychometric information. Together, the two-stage accreditation program provides an independent measure of quality assurance for the accredited testing program. We believe that Buros provides the highest degree of professional evaluation in the testing accreditation field.

Sincerely,

Kurt F. Geisinger, Ph.D.,
Director of Buros Center for Testing
